

Bempton School News

September 2009

Welcome back— this promises to be an exciting and focused term, with lots to look forward to. A very warm Bempton welcome to our new children who have joined nursery, and to Sam and Amber who have joined KS1. We hope you all soon feel part of our caring and hard working school family. Welcome also to Miss Lodge, our new Class 1 teacher and our new Teaching Assistant Miss Buckborough who will be working in the Nursery and Class 1. We would also like to welcome Miss Clark our new Teaching Assistant in Class 2. We would like to take this opportunity to thank parents/carers for their full support in labelling all the children's clothes and belongings, this ensures that nothing should end up in our lost property and if it does it can then be given back to its rightful owner.

GYMNASTICS CLUB

This will start next Wednesday with everyone welcome to join. Miss Donna Haigh has kindly offered her services in running this club and the cost per child for the term will be £20.00 should there be more than one child in the family wanting to join then the additional cost would be £10.00. This price has been fixed for the last three years, as we believe that this is a fun and healthy activity for everyone to enjoy and take part in. Forms will be on there way to you today to fill out and return back to the school office.

Other extra curricular activities on this terms agenda are Football on Monday to be run by Mr Hellawell and Miss Clark and Grid Club on a Thursday Lunchtime with Mrs O'Reilly.

WATER BOTTLES

School Water Bottles - We have decided to give every child in school a new water bottle free of charge. All we ask is that the children take responsibility for their own bottle making sure that a teacher has put their name on it. They will remain in school and will be rinsed out each Friday. We are waiting for stock to arrive and as soon as it does then they will be distributed to all the children. Until then can parents ensure that any bottles brought into school are only filled with water and not flavoured juice.

SCHOOL GROUNDS

These are looking wonderful. The Stephanie Halliwell Friendship seat has been installed, we are sure that all the children have found this a nice place to sit and have quiet time or just to sit with friends old and new. Our garden is looking beautiful along with the new nice plants in the planters

SCHOOL DINNERS

As Autumn/Winter approaches and colder weather threatens, we should like to remind you about our excellent school dinners which are freshly prepared every day by the Cook at Flamborough School. The weekly menus are varied, healthy and enjoyable. We will be launching Theme/Celebration days where the children will be able to taste food from different parts of the world, adding an exciting part to the dinner time routine.

STOP PRESS This years Panto is ALADDIN We hope to take all the children (R to Yr 6) to see it. More later.
