

Given as an example of once a day sun cream protection for your child during the school day

Once a Day sun protection

10 hours protection from one application

Very Water Resistant

Easy to apply, non greasy, no white marks

P20 provides 10 hours protection from one application and is very water resistant even after swimming frequently throughout the day. It's clear, lightweight consistency ensures a silky and even coverage. Active 15 minutes after application, it's quickly absorbed, non sticky and leaves no white marks. The original SPF20 is now joined by other factors: an SPF15, 30 and 50+, which come in a new easy to use spray. Thanks to its long-lasting UVA and UVB filters, it helps protect against burning and the premature signs of ageing, and its once a day formula is colour and paraben-free, with no added fragrance or preservatives. Great for all the family, including the children whether you're lazing by the pool on holiday, outdoors playing sports, or just enjoying the garden at home. Perfect under make-up or moisturiser and for men with a thinning scalp.

Ingredients

Alcohol Denat., Butyloctyl Salicylate, Octocrylene, Homosalate, Diethylamino Hydroxybenzoyl Hexyl Benzoate, PPG-15 Stearyl Ether, Ethylhexyl Salicylate, , Butyl Methoxydibenzoylmethane, Diethylexyl Butamido Triazone, Cyclopentasiloxane, Acrylates/Octylacrylamide Copolymer, Ethylhexyl Methoxycinnamate.
